

St. Paul's CE Primary School Pupil Premium Strategy Statement

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year. School overview

Detail	Data
Number of pupils in school	418
Proportion (%) of pupil premium eligible pupils	4.3%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2022-2023 2023-2024 2024-2025
Date this statement was published	December 2021
Date on which it was last reviewed	October 2022
Date of next review	October 2023
Statement authorised by	Cath Mann
Pupil premium lead	Belle Perrin
Governor / Trustee lead	Theresa Davis

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£31039
Recovery premium funding allocation this academic year	£2465
Pupil premium (and recovery premium*) funding carried forward from previous years (<i>enter £0 if not applicable</i>) <i>*Recovery premium received in academic year 2021 to 2022 can be carried forward to academic year 2022 to 2023. Recovery premium received in academic year 2022 to 2023 cannot be carried forward to 2023 to 2024.</i>	£0
Total budget for this academic year <i>If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year</i>	£33504

Part A: Pupil premium strategy plan

Statement of intent

At St. Paul's we want to equip our children with the knowledge, skills and understanding that will enable them to achieve highly and develop awareness, compassion and respect for others. The curriculum is both broad and inspiring, designed to offer exciting learning experiences shaped by our Christian vision and values which are at its heart. We strive for academic excellence for all pupils, regardless of their background, and full participation in all our wide-ranging school activities for all pupils.

It is our intent to provide a curriculum which is relevant to the 21st Century- one which prepares the children for the world in which they will live and work. We want our children to enjoy personal success, to be enthusiastic learners and develop skills such as resilience and team working which will support their love of learning as they progress through school. Our Pupil Premium Strategy, alongside our wider school improvement plan and equalities plan, is one part of how we seek to redress any inequalities and enable all pupils to achieve highly and experience an inspiring range of opportunities.

We currently have a very small number of pupils eligible for pupil premium funding and these pupils have a wide range of individual and different needs. We track these pupils individually and as a group to ensure all pupils are reaching their potential.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Supporting attainment and progress- reading, writing and maths We track the progress and attainment of all our pupils individually on a termly basis and we compare the progress and attainment of groups of children according to different characteristics including eligibility for pupil premium. Our analysis of both school-based data for all individuals and classes has shown that some individual pupils who are eligible for pupil premium are not attaining as highly as their peers who are not eligible for pupil premium in their reading, writing or maths. This difference has, in some cases, been exacerbated by the school closure periods.
2	Supporting personal development and well-being Our discussions with some pupils and families, especially at the return-to-school points after school closure periods, have identified social and emotional issues

	for some families where children are eligible for pupil premium. We want to support these pupil' well-being and personal development by ensuring they participate as fully as possible in our wide-ranging extra-curricular and enrichment activities. We have identified that social and emotional difficulties due to complex family situations are a barrier for some pupil premium children. These difficulties have had an impact on the potential attainment and progress of some children. We are therefore using some of our pupil premium funding to cover the cost of a range of therapies including art, music and drama therapy.
3	Developing long-lasting reading behaviours Our detailed knowledge of what and how children read when they read for pleasure shows us that some of our pupils who are eligible for pupil premium do not all have access to the same sources of books or book experiences outside school and do not therefore always develop the same love of reading and positive reading behaviours as their non-disadvantaged peers.
4	Multiple barriers to learning. Some disadvantaged pupils also have a SEND or a P/LAC

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved reading, writing and maths attainment for individual disadvantaged pupils.	Percentage of pupils eligible for pupil premium meeting the expected standard in English, Maths and Science at KS2 is in line with non-disadvantaged pupils.
Sustained increase in pupil well-being and personal development among all pupils and disadvantaged pupils in particular, through participation in a wide range of enrichment and extra-curricular activities.	Pupils increased development of self-awareness, their ability to identify how they are feeling and demonstrate self-regulation strategies. Pupils eligible for pupil premium to participate in after-school clubs, and all enrichment activities with the school day, including educational/residential trips. Pupils to access therapy when it is needed.
Developing long-lasting positive reading behaviours. Our detailed knowledge of what and how children read when they read for pleasure shows us that our pupils who are eligible for pupil premium do not all have access to the same sources of books or book experiences outside school and do not therefore always develop the same love of reading and positive reading behaviours as their non-disadvantaged peers.	Children in our disadvantaged group demonstrate an ability to make appropriate and engaging books choices for themselves and that they read widely for pleasure and can talk about what they have read. Data from class teachers during assessment week and teacher led assessments.
To ensure disadvantaged pupils with additional barriers to learning individual needs	There will be a systematic approach to the case studying of individual pupils who: have

are addressed so that they make at least expected progress from starting points in, reading, writing and mathematics and meet the requirements of the Y1 phonics check and the Y4 multiplication check.	a SEN/D IEP are P/LAC and are in receipt of PPG to ensure steps in progress can be more readily measured in Pupil Progress Meetings.
---	--

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £5294

Activity	Evidence that supports this approach	Challenge number(s) addressed
COSIE training- professional development of staff in relation to trauma informed practice	EEF reports that improving Social and Emotional Learning is especially important for children from disadvantaged backgrounds and other vulnerable groups, who, on average, have weaker SEL skills at all ages than their better-off classmates.	2, 4
Professional development for SEN assistant- Child Counselling Level 2 with Place to Be	EEF reports that with the right support, children learn to articulate and manage their emotions, deal with conflict, solve problems, understand things from another person's perspective, and communicate in appropriate ways. These 'social and emotional skills' are essential for children's development, support effective learning, and are linked to positive outcomes in later life.	2, 4
Embedding of DfE-validated Systemic Synthetic Phonics programme and additional CPD for teacher and support staff	The DfE 2021 Reading Framework includes a range of evidence demonstrating that consistent use of SSP enables rapid progress for all pupils in reading. EEF reports a range of research that demonstrates the high impact of phonics on outcomes and progress of disadvantaged pupils: EEF Phonics	1,3,4

Targeted academic support (for example, tutoring, one-to-one support, structured interventions)

Budgeted cost: £12947

Activity	Evidence that supports this approach	Challenge number(s) addressed
Purchase of Century- an online learning platform that uses the latest research in learning science, artificial intelligence and neuroscience to underpinned by evidence-based scientific and pedagogical techniques.	EEF reports that to improve learning, technology must be used in a way that is informed by effective pedagogy.	1,3,4
Purchase of IDL- evidence based reading and spelling programme and implementation of morning intervention	EEF reports that high quality targeted support can ensure that children falling behind catch up as quickly as possible.	1,3,4
Provide additional one-to-one volunteer reader sessions (using volunteer helpers) targeted at disadvantaged	The DfE 2021 Reading Framework includes a range of evidence demonstrating that developing a love of reading, alongside developing reading fluency, is of the highest priority in enabling children to develop vocabulary (for use in speech and writing), to access the wider curriculum and to support well-being.	1,3
Additional teacher and teaching assistant time directed at individual reading sessions, individual/group phonics sessions, individual or small group maths and English booster groups within school time	EEF reports a range of research that small group tuition, such as our finely targeted booster sessions, can have a good impact on pupil progress: EEF Small Group Tuition EEf reports a range of evidence that individual support provided by a TA or teacher is very effective in improving pupil outcomes: EEF One to One Tuition.	1,3,4
Provide booster sessions for disadvantaged pupils (and others) to target specific areas of the curriculum.	EEF reports a range of research that small group tuition, such as our finely targeted booster sessions, can have a good impact on pupil progress: EEF Small Group Tuition.	1,3
Pupils to access 1:1 targeted intervention	EEF reports that high quality targeted	1,3,4

from the National Tutoring Programme .	support can ensure that children falling behind catch up as quickly as possible.	
---	--	--

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £15263

Activity	Evidence that supports this approach	Challenge number(s) addressed
Staff professional development training on mental health and zones of regulation . Whole school implementation of zones of regulation.	EEF outlines the importance of teaching children Self-awareness: expand children's emotional vocabulary and support them to express emotions. It also reports the importance of teaching children self-regulation, self-calming strategies and positive self-talk to help deal with intense emotions.	2,4
Support full participation of disadvantaged pupils in extra-curricular and enrichment activities , through allocated spaces, parent engagement and financial contribution	DfE Wellbeing for Education Recovery documents report the importance of a range of activities to promote well-being: DfE Wellbeing for Education Recovery.	2
Art, music and drama therapy available for identified children	DfE Wellbeing for Education Recovery documents report the importance of a range of activities to promote well-being: DfE Wellbeing for Education Recovery.	2

Total budgeted cost: £ 33504

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

We continue to track individual pupil progress and attainment each term, adapting our provision and extra support accordingly

Improved progress for pupil premium pupils

Using internal data

66% PP children met the expected standard in reading, writing and maths compared to 60% in their previous Key Stage. Progress has also been measured through pupil progress meetings, book monitoring, formal and informal assessments.

Improved curriculum access for pupil premium pupils.

A regular schedule of book looks and monitoring of planning and interventions has shown that PP children are being exposed to a broad and balanced curriculum.

We have provided laptops for those children who do not have access to one at home and have supplemented their reading books with electronic books on bug club. We have scheduled pupil progress meetings at set points throughout the year between class teacher and a member of SLT as an opportunity to focus on particular children and the support they have received and progress they have made.

We have funded places for children to attend class trips, HYMB and School Journey. We have also provided free places at our after-school football and netball clubs and have spoken with parents to encourage participation in these clubs.

Targeted interventions for our PP children personalised to their needs.

Improved outcomes for pupil premium pupils.

Analysis of individual data shows improved outcomes in Reading, writing and maths against previous Key stages.

In reading, 66.6% of pupils achieved the expected standard in KS2 compared to 60% in KS1. 33.3% of those pupils achieved GDS.

73% of pupils achieved the expected standard in writing, an almost 20% increase from KS1.

In maths, 73% of pupils achieved the expected standard, compared to 60% in KS1.

Higher rates of attainment in maths and writing for PP pupils.

Those children who were working towards the expected level in maths has reduced from 40% in KS1 to 20% in KS2.

There will be a continued focus on maths attainment for PP children to work towards narrowing the gap in maths attainment and increasing the number of pupils achieving greater depth.

Social and emotional support to increase concentration and confidence.

The role of SEN assistant has been developed so that greater number of pupils have access to social and emotional support. Pupils have received support for their Social, Emotional and Mental Health needs through Music, Art and Drama therapy. Termly reviews with parents have taken place and reports written. Pupils have been supported with their concentration with movement/brain breaks and the daily mile.

Externally provided programmes

Please include the names of any non-DfE programmes that you used your pupil premium (or recovery premium) to fund in the previous academic year.

Programme	Provider
N/A	

Service pupil premium funding (optional)

<i>For schools that receive this funding, you may wish to provide the following information: How our service pupil premium allocation was spent last academic year</i>
The impact of that spending on service pupil premium eligible pupils
